| Mark Andre       | Optometry                                        | Design flexibility improves success for complex cornea  
Scleral lens wear  
A new CRT delivery system  
A case of irregular astigmatism  
A custom soft lens for post-RK hyperopic shift  
A closer look at SEALs  
Orthokeratology for astigmats  
Not all astigmatism is created equal  
A case of non-lens-related GPC  
Aspheric lens design success  |
| Casey Arendt     | Pharmacy                                         | Role of transmembrane domain 4 in ligand permeation by crithidia fasciculate  
equilibrium nucleoside transporter 2 (CINT2)  |
| Jeffrey Barlow   | History                                          | Editor of and multiple articles in  
Interface                                                                 |
| Pauline Beard    | English                                          | Pacific Coast Philology, co-editor  
Review of "Pride and prejudice and zombies"  
Interface
